

WINE STORAGE LOCKERS

WireCrafters®

WINE STORAGE LOCKERS

IDEAL FOR

Wine Storage Facilities | Wine Production Facilities

Wine Storage Lockers

We manufacture wine lockers with the same material we use in the industrial marketplace.

- Heavy 10 gauge 2" square welded wire pattern
- Wire mesh welded to a 13 gauge steel angle frame
- Angle frame panels bolted to a 2" square 14 gauge tubing
- Powder coat gray finish
- Steel shelf capacity up to 1000 lbs
- Hinged doors with built in key locks
- Slide doors available for narrow aisle ways

Smaller Storage

If you are storing your own smaller collection of wine, the smaller lockers that hold up to 12 cases may be all you need.

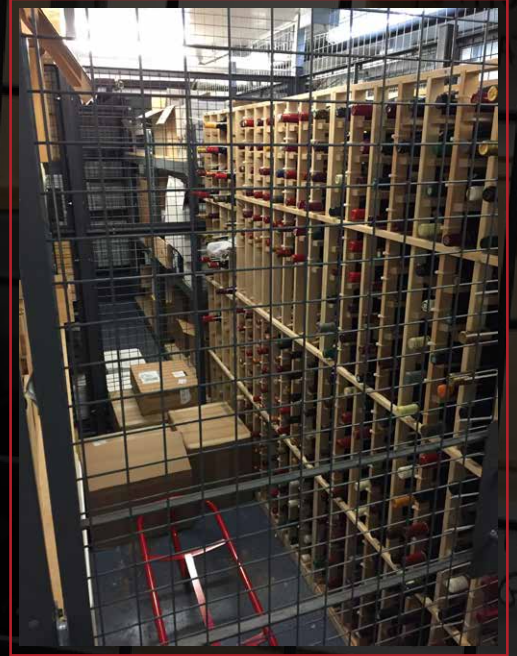

Many different sizes available

Larger Storage

Depending on what type of shelving is provided inside these lockers you could hold up to 1000 bottles of wine.

SPECS, SAFETY, LOCAL REPS

Lockers customized to your needs.

- Commonly found in 55-degree climate controlled facilities.
- Combination of single, double, or triple tier, and even large walk-in lockers
- WireCrafters representatives available nationwide will come to your facility, measure your floor, and provide complete installation. They can also assist in shelving units for walk-in lockers.

Our Safe and Secure design provides you peace of mind knowing your expensive and treasured bottles are in a WireCrafters locker.
