

WireCrafters®

FastBack™ Bracket

Installs over 3 times faster than standard RackBack®

Flush Mount

1" - 3" Offset

4" - 6" Offset

Allows a two-person team to install more panels per hour.

Rivets mimic those that manufacturers use to connect their cross beams to the upright.

The SLIC Pin® (Self Locking Implanted Cotter Pin) is a one-piece, spring-loaded locking clevis pin that eliminates the need for the traditional threaded bolt for bracket to panel connection.
