

WireCrafters Specifications

Welded Wire Storage Lockers

Mesh

Thickness – 10 Gauge (.135)

Design – 2” x 2” (center to center) square welded wire.

Doors

Framed in 1 ¼” x 1 ¼” x 13 gauge angle and pre-hung at the factory. All doors supplied with door strikes, padlock lugs, and 2 ½” x 2 ½” spun-pin hinges welded into place.

Panels

Framed with 1 ¼” x 1 ¼” x 13 gauge angle.

Backs (optional)

16 gauge galvanized sheet metal.

Tops (optional)

Shall be constructed of the same fabric as the standard locker.

Shelves/Bottoms (optional)

16 gauge formed galvanized steel adds strength and versatility to any locker system.

Hardware

Standard grade 3/8” plated nuts and bolts will be supplied for assembly, 3/8” mechanical anchors for wall and floor mount.

Finish

All non-plated parts shall be powder coated gray. Other colors are available for an upcharge. Product is finished for interior applications. Materials are shipped loose and subject to nicks and scrapes while in transit. Touch up paint is provided. All lockers are shipped knock down, ready for assembly.
